SUMMARY

AI Product Engineer with 3+ years driving data-driven decision making and AI solutions from concept to launch. Delivered \$1.5M in savings and 70K+ monthly productivity hours by turning ML research into scalable healthcare products. Currently pursuing Master's in Engineering Management. Seeking internship/Co-op roles starting January 2026.

EDUCATION

Purdue University

West Lafayette, IN

Master of Engineering Management (GPA: 4.0/4.0)

Aug 2025 – May 2027

- Coursework: Technical Product Management, Student Consultant – Caterpillar LLM analyser, Pro-Bono Product Consultant -Bayer, Student Managed Venture Fund, Human factors in Engineering.
- **VP** – Product Management Club | **Lead Project Manager** – 180 Degrees Consulting.
- **Teaching Assistant** – Project Manager for ML-led Drug Discovery.

Cummins College of Engineering

Pune, India

Bachelor of Electronics and Telecommunications Engineering

Aug 2018 – May 2022

- Relevant Coursework: Big Data Analytics, New Product Development, Design Thinking, Advance Mathematics, NLP.

EXPERIENCE

Athenahealth

Bangalore, India

Machine Learning Engineer – II (Product Development)

Dec 2023 – July 2025

- Drove 0→1 launch of AI document labelling across athenahealth's client base and led 15-person cross-functional team saving 70K+ hrs/month and 82% user adoption rate, to ship automated clinical coding that reduced 8-min manual labelling process to <30 seconds.
- Authored PRDs and led GTM strategy by designing product demos for 200+ Thrive Conference attendees and C-suite, generating 12 qualified pilot leads and securing exec approval to accelerate Q3 roadmap to Q1 launch.
- Achieved \$1.5M in cost savings by resolving CRM issues, deploying 4 custom ML solutions, and building evaluation pipelines that improved automation by 3% across 500K+ daily documents.
- Liaised with UI/UX teams on A/B testing to validate usability improvements, increasing provider satisfaction and accelerating model adoption by analysing large-scale unstructured data.

Machine Learning Engineer

July 2022 – Nov 2023

- Transformed team efficiency by 80% by restructuring Data Science support into agile framework as Scrum Master for 7 engineers, slashing client ticket resolution time and boosting cross-functional velocity.
- Architected the company's first GenAI feature by reframing the business problem into a valuable product, optimizing cost through token reduction (GPT/Claude/LLaMA), and building a scalable platform for future deployments.
- Shaped product roadmap through user-centered discovery by identifying critical UX bottlenecks via exploratory data analysis and focus groups, reducing label taxonomy from 44K+ to 250 categories, and launching highest rated feature.
- Optimized client ticket resolution by analysing backlog patterns, creating self-service documentation, developing tool for document history retrieval, and training QA teams, reducing product backlog and improving cross-team efficiency.

MakeShift Education (Early-stage Ed-tech startup)

Pune, India

Product Management Intern

Jan 2022 – April 2022

- Designed scalable product and market strategy for institutional education programs in non-STEM colleges, identifying underserved market segment and creating product-market fit by extensive competitor analysis.
- Executed successful GTM strategy by collaborating with Marketing, Sales, and Pre-Sales teams to launch new product lines, achieving 15x increase in user adoption and 65% profit growth.

Indian Institute of Technology – Delhi

Delhi, India

Deep Learning Research Assistant

Jun 2021 – Aug 2021

- Engineered 3D CNN for hyperspectral image classification on IndianPines dataset achieving 97% accuracy across 20 classes using spectral-spatial feature extraction.
- Benchmarked lightweight vs deep architectures demonstrating performance gap (43% vs 97%) for complex multi-band remote sensing data.

ACHIEVEMENTS

- Recognized by leadership by receiving “Standing Ovation” Award from CTO for reducing provider burnout.
- 1 of 10 nation-wide Awardee of Avery Dennison InvEnt Scholarship for creating invention.

SKILLS

Certifications: Google Analytics Certified, Enterprise Design Thinking Practitioner – IBM SkillBuild

Product: User Research, Data Analysis, Stakeholder Management, Agile/Scrum Methodologies, Go-to-Market Strategy, Product Road-mapping, 0-1 Product Development, Cross-Functional Leadership, JIRA, Confluence.

Technical: Python, MySQL, LLM, GenAI (LangChain, Claude, Llama, MCP), NLP, Tableau, TensorFlow, PyTorch, EDA, A/B Testing (Split.io, DarkLaunchly), Figma, AWS.
